

Vorträge Doktorand/innen WS 2018/19 (Die + Do, 11.30 Uhr am TROPOS)

Datum		Doktorand/in	Thema
25	Oct	Daniel Mewes, 2.	
30	Oct	Jan Kretzschmar, 1.	<i>Evaluation of Arctic cloud cover in ECHAM6 using CALIPSO</i>
8	Nov	Athina Avgousta Floutsi, 1.	<i>Towards an automatic lidar aerosol typing algorithm for satellite validation and model assimilation/evaluation</i>
11	Dez	Tobias Otto, 3.	
8	Jan	Carola Barrientos Velasco, 2.	<i>Cloud Radiative Forcing of the Arctic Surface during PS106</i>
10	Jan	Hoa Le Phuoc, 1.	
22 13:00	Jan	Erik Schmöller (DLR)	<i>Study of the delayed ionospheric response to solar EUV</i>
24	Jan	Hannes Griesche, 2.	
31	Jan	Leizel Madueno, 1.	<i>Carbonaceous Particles in Developing Regions: Motivation for Black Carbon Measurements</i>
05	Feb	Kevin Wolf, 2.	<i>Comparison of airborne measurements and simulations of broadband and spectral irradiances</i>
07	Feb	Elena Ruiz Donoso, 3.	
14	Feb	Rajesh Vaishnav, 2.	<i>Investigation of ionospheric delayed response to solar EUV and UV variations</i>
19	Feb	Peter Mettke, 2.	<i>Atmospheric multiphase chemistry of isoprene-derived oxidation products</i>
05	March	Xianda Gong, 3.	<i>Source of Cloud condensation nuclei (CCN) and ice nucleating particles (INP) in Cape Verde</i>
07	March	Kátia Mendes de Barros, 2.	
12	March	Christoph Geißler, 1.	
14	March	Tamara Felber, 2.	<i>Photochemical properties of photosensitizers in tropospheric aqueous solution</i>
26	March	Markus Hartmann, 3.	
28	March	Sebastian Zeppenfeld, 3.	<i>Sea-air transfer measurements of marine carbohydrates</i>
29	January	Marie Luttkus, 1.	<i>Biogenic emissions and urban air quality: mechanism and mitigation options</i>
